Leveraging >50 years of expertise, Agilent create portable instruments that provide trusted answers to our customers' most critical questions. The 'Resolve' system can identify explosives, narcotics and hazardous materials either directly (e.g. exposed powder or a liquid spillage), or through barriers such as coloured opaque plastics, glass or paper.

NBC-Sys is a leading provider of CBRN detection, protection and decontamination solutions. For more than 70 years, we provide our Military & Civil customers with:

- Air-treatment systems for vehicles & shelters,
- Decontamination solutions for sensitive materials, vehicles, aircrafts, infrastructure and personnel,
- Individual protection, including respirators units and CBRN filter,
- Chemical & biological individual detectors and mobile detection kits.

NBC-Sys is continuously maintaining an in-house design, development, production, testing & support capability.
