SPONSORS & EXHIBITORS

CEIA is a world leading manufacturing company specialized in the design, engineering and production of a complete range of Metal Detectors and Electromagnetic Inspection Devices conceived to satisfy every need in the Demining, UXO Detection, C-IED, Security and Industrial Sectors. Thanks to 50 years of in-depth research and experience, combined with the most advanced electronic and mechanical technologies, CEIA has established itself as a primary manufacturer of high-performance Ground Search Metal Detectors and sensors. Throughout the years, CEIA spent also several missions all over the world to assist the operators and provide operation, training and logistic support.

With 22 years of experience, DIGGER-DTR has firmly demonstrated the high performances and reliability of their unmanned de-mining machines.

The D-250, completely designed and manufactured in Switzerland, has proved to be a major international player, earning time and time again the trust of our customers.

The D-250 received the CW-15044 certification after the Swedish Army used it to destroy 2 x 450 anti-personnel mines and several anti-vehicles mines.

QINETIQ

QinetiQ develops revolutionary, rugged, reliable and multi-mission robots in a variety of sizes and with varying capabilities that support warfighters, military police and first responders with critical and dangerous missions. Deployed worldwide, our TALON®, SPUR and Dragon Runner® robots have are used to increase situational awareness, aid in safety, enhance security and support IED, EOD, and CBRN operations. With over 20 years of proven technology and over 5,000 robots sold, QinetiQ robots have proven to be dependable, reliable and even lifesaving.

SUPPORTING PARTNERS

Federal Administration of Civil Protection is a governmental agency in charge of protection and rescue of lives and goods from natural, technological and war accidents and disasters. Among its set of responsibilities among the highest priorities are humanitarian demining, mine victims rescue and explosive ordnance disposal. Its teams also execute underwater EOD, ordnance removal from difficult terrains like natural pits and caves and remote mountain ranges where special techniques must be used. Besides field activities Federal Administration of Civil Protection conducts training in all abovementioned procedures for its own personnel and attendees from other organizations.

Counter-IED Report is a leading international subscription-based publication, which covers the latest developments in the fight against the IED threat. We aim to identify technological advances as well as strategies and tactics for countering threat networks, reduce IED manufacture and placement, assist post-conflict humanitarian demining and capacity building efforts worldwide.
